Dear Judge Montali:

I am a claimant in case no. 19-30088 (claim 2017). On March 24th, you presided over a teleconference call in which you asked opposing attorney (Ms Dara Silveira) if those claims that had been settled or objections withdrawn would be paid in a reasonable timeframe - her answer was "yes". (See attached page of transcript with your question circled).

Now, Ms Silveira is stating that although the objection to my claim had been withdrawn, it has not been allowed. She writes that what she said was... "Where there has been a resolution reached or we've withdrawn *and allowed* the claim, those are being paid." (Transcript at 7:15-17). Therefore, she is saying my claim has not been allowed.

I do not believe that is how you framed the question; did you interpret Ms Silveira's answer as a straightforward "yes" to your question? Did you distinguish a difference between an objection

withdrawn and a claim being allowed?

Furthermore, after many unreturned phone calls to opposing attorneys, now they are saying they want to go backwards to ADR to resolve the claim to which I would ask...why file an objection, withdraw the objection, have a court date March 24th...if the plan was to go the ADR route? Also, this would add unnecessary time to a process that has already exceeded two years. I have had multiple unreturned phone calls to PG&E attorneys, and have had no choice but appeal to the court in writing to you again (twice) - and I am sorry for that. It is not my intention to take up valuable court time.

Any clarity you can provide would be greatly appreciated.

Sincerely,

24 THE COURT: Good morning, MS. Silveira. I saw your  
25 name, and I thought you were going to be the attorney

PG&E Corporation and Pacific Gas and Electric Company  
1 appearing. But I also saw Mr. Benvenutti's name. I'll assume  
2 you're going to answer my questions unless we hear from him.

3 So I want to make sure I'm clear what you expect when  
4 we are dealing with a claimant that have been identified as  
5 being dealt with by a status conference today. And more  
6 specifically though, I want to ask a couple of fundamental  
7 questions.

8 In some of the -- obviously, a number of the matters  
9 that were on for today's calendar have been continued to a  
10 later date. And we don't need any discussion about that.

11 But as far as claimants where PG&E has withdrawn the  
12 objection or there's been a resolution by agreement, is it fair  
13 to assume that those claims will be paid in due course and  
14 soon?

15 MS. SILVEIRA: Yes. Where there has been a resolution  
16 reached or we've withdrawn and allowed the claim, those are  
17 being paid. I believe our timeline is checks go out every two  
18 to three weeks.

19 THE COURT: Okay. Okay. Again, there's no immediate  
20 feedback from my point of view. And I don't know what the  
21 distribution timing is. But at least claimants who are in the  
22 call today, they may be more inclined to agree to things if  
23 they know they're going to get paid quickly. That's for a  
24 specific discussion on any particular claim.

25 Then next, what is your expectation for some of these
